PATTERN NOTES

Get creative and express yourself with these delightful dolls! These cuties were designed for Universal Yarn by Jacki Donhou, and they use six of our new colors of Bamboo Pop to celebrate the diversity of our skin tones. Each doll features playful hair styles and unique accessories. They're perfect as sweet décor or toys for your little one. You can try to just make one, but we're pretty sure you won't be able to resist making them all!

These dolls are created modularly with minimal seaming by first creating two Arms and setting them aside. Then the Body is made seamlessly by making one Leg, then joining a second Leg to it before working in the round for the Body. The Arms are attached while working rounds of the Body, before moving on to shoulder and neck shaping, then finally the head. Ears are made and sewn on separately. Lastly, facial features are embroidered on to finish the doll.

You will work in unjoined, continuous rounds. To track them, place a removable stitch marker in the first stitch to denote the beginning of each round. You will move the marker up each round after completing the first stitch of each new round.

This pattern uses a shorthand style of crochet instructions. Abbreviation descriptions and instructions are given in the Stitch Guide. Some examples are provided below:

- When working stitches around, instead of reading something like "sc in the next 2 sts," you will simply see "sc 2."
- When working repeats of sets of instructions in a round, instead of seeing something like " * sc in the next 2 sts, 2 scs in the next st; rep 4 more times," you will simply see "(sc 2, INC) x 5."

BAMBOO POP DOLLS

BODY

Note: The first ch made will count as the first st of the Body and will be worked into twice. Once the first Leg is joined, you will work into one side of the ch while completing the first rnd. You will then work into the Front side of the ch to begin the next rnd.

Note 2: To begin, hold first Leg next to second Leg so that the first st (marked with removable m) is aligned as the next st to work into after the first ch is made.

Note 3: Stuff body firmly with polyester stuffing as you go.

Rnd 1: Ch 1, place removable m in ch, sc in marked st of first Leg then remove m's from both Legs, sc 17, sc in the back of the ch, *one side of ch worked*, sc 18 around 2nd Leg – 38 sts.

BAMBOO POP DOLLS

Add Arms to Body

Note: Arms should sit parallel to the Legs. Exact st counts are given for the placement of the Arms, however if your tension has varied up till now, you may need to make an adjustment by either adding the Arms 1-2 sts before or after the indicated st counts below.

Note 2: Arms will be attached by working half of the sts at a time over 2 rnds. First, you will place the Arms with the hand-shaping facing forward. Align 5 of the Arm sts with the next 5 indicated sts of the Body, then work through both the Arm and Body sts. On the following round, you will only work into the remaining 5 Arm sts.

Note 3: Assign either arm to be Arm 1 and Arm 2.

Rnd 17: Sc 22, sc 5 Body + Arm 1 sts, sc 3 – 30 sts.

Rnd 18: Sc 7, sc 5 Body + Arm 2 sts, sc 10, sc 5 rem Arm 1 sts, sc 3 – 30 sts.

Rnd 19: Sc 7, sc 5 rem Arm 2 sts sc 18 – 30 sts.

Rnd 20: Sc in each st around.

Optional: To add structure and stability to the upper Body, take 2 pipe cleaners and twist them together to make one thick pipe cleaner. Take the two ends and twist them together to make a point. Bring the bottom center of the pipe cleaners up to the twist. This will create two long wires that you will feed down through both Arms. Push the wire down in the first Arm and then into the second Arm. This will leave the ends of the wire coming up out of the neck.

Rnd 21: (Sc 3, DEC) x 6 – 6 sts dec'd, 24 sts rem.

Rnd 22: (Sc, DEC, sc) x 6 – 6 sts dec'd, 18 sts rem.

BAMBOO POP DOLLS

Attach Ears to Head

Pin the ears on the side of the Head between Rnds 47 & 51 with 31 stitches between the bottom of the Ears along the front of the Head. When pinned evenly, sew on using the leftover ends. When finished, weave ends into the Head.

FACE DETAILS

Nose

Using sewing pins, mark the width of the nose in the center of the face at Rnd 46 and 3 stitches apart. Mark the triangle eyes with the first pin three stitches away from the nose, and the second four stitches away from the first. Add the last pin one round above the two eye pins and center it. You should have two triangle-marked eyes like in the photos below. With the embroidery needle enter the yarn through the side of the Head to the first nose pin. Whip stitch a nose between the two pins 4-5 times. Once complete, exit the yarn back through the same stitch on the side of the Head, knot the two ends, and weave the ends into the Head.

BAMBOO POP DOLLS

Eyes

To embroider the eyes, use black crochet thread or embroidery floss, and an embroidery needle and enter on the side of the Head and exit at the first pin. Then enter the stitch at the second pin horizontally to the first one. To make the triangle shape, bring the needle up to the third pin, loop the needle around the thread, and enter through the same stitch. This circles the thread to make the shape and holds it in place. Exit the needle through the side of the Head where you entered, tie the ends, and hide them in the Head.

ATTACHING THE HAIR

Part 1: Start by matching up the MC of the Hair and the MC of the Head, then adding a pin to the top of the Hair to keep it in place.

Part 3: Sew the Hair Base to the Head using the embroidery needle and the long tail left over. Starting at the top of the Head, make a few whip stitches around the outside of round 4 and through the Hair and Head to keep it from moving around. Fasten off and weave in ends.

Part 4: Flip the Head upside down and sew the Hair Strands down beginning at the pins along the back Hair strands and working your way around the back of the Head. Fasten off and weave in ends.

Part 5 continues on the following page.

BAMBOO POP DOLLS

GREEN DOLL

Part 5: Split the front 12 Hair Strands in half with a part in the middle of the forehead. Working from above the left Ear to the center of the part, twist the top of the first Hair Strand and sew it on top of the long Strand to the left of it. Then twist the top of the next Hair Strand and sew it overlaps the last Hair Strand. Try to curve the Strands just a little as you sew. Repeat these steps until there are 6 Hair Strands sewn above the Ear.

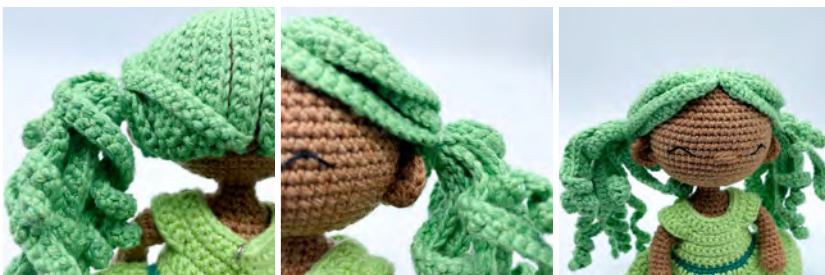

Repeat the above steps for the Hair Strands at the right Ear.

Fasten off and weave in ends.

FINISHING

Use small, clear hair ties to make ponytails behind each Ear. Pull the back Hair Strands up to each Ear, add the front bangs and wrap the hair tie around the Hair Strands to create the ponytails.

ATTACHING THE HAIR

Part 1: Start by matching up the MC of the Hair and the MC of the Head, then adding a pin to the top of the Hair to keep it in place.

Part 2: With the shortest Hair Strands centered on the face, pin the next longest Strands above each of the Ears. Pin the rest of the long Hair Strands side by side to the back of the Head to cover it. Adjust the Hair Strands as needed to fill any bare spots.

BAMBOO POP DOLLS

ORANGE DOLL

Part 3: To make the parted Hair in the front of the face, pin the first five shorter Hair Strands starting from the front of the left ear and working to the center of the face. Then do the same step for the right side of the face with those first five hair strands, this leaves two hair strands up and unpinned.

Part 4: Pin the last two hair strands on top of the other strands to the right giving a layered look to the hair.

Part 5: Sew the Hair Base to the Head using the embroidery needle and the long tail left over. Starting at the top of the head, make a few whip stitches around the outside of round 4 and through the hair and head to keep it from moving around. Your last whip stitch should be at the front of the part in the shorter hair strands.

Part 6: Sew the ends of Hair Strands down beginning at the shorter front Hair Strands and working your way around the head and ending back at the part in the hair. Fasten off and weave the end of the yarn in the hair and head to finish off.

FINISHING

Attach Bowtie

Use a sewing needle and thread to attach the Bowtie to the Shirt on the overlapping panel near the top corner.

Attach Suspenders

Cross the Suspenders on the doll's back and sew the ends to the top of the Pants waistband at an equal distance apart. The tension on the Suspenders should not be too tight.

Make Glasses

Center the 18-gauge wire on the eyeglass mold and shape the wire down and around the circles to create the two round spectacles. Finish off by pushing the end of the wire through the cut-outs to make the stems. If the stems are too long, you can trim them with wire cutters to shorten them.

PATTERN NOTES

This pattern details how to make the Dress, Shoes, Hair Tie and Hair for the doll. Each piece of clothing is created to be removable and interchangeable with other dolls and clothing. The Hair is created and sewn on to the doll head permanently.

The Skirt portion of the Dress and the Shoes will be worked in unjoined, continuous rounds. To track them, place a removable stitch marker in the first stitch to denote the beginning of each round. You will move the marker up each round after completing the first stitch of each new round.

This pattern uses a shorthand style of crochet instructions. Abbreviation descriptions and instructions are given in the Stitch Guide. Some examples are provided below:

- When working stitches around, instead of reading something like “sc in the next 2 sts,” you will simply see “sc 2.”
- When working repeats of sets of instructions in a round, instead of seeing something like “* sc in the next 2 sts, 2 scs in the next st; rep 4 more times,” you will simply see “(sc 2, INC) x 5.”

Photos are provided for your reference throughout the pattern. Please reference the Materials list to ensure you are using the correct colors per section, as some photos are duplicated and used across all doll accessory patterns.

Part 2: With the shortest Hair Strands centered on the face, pin the next longest strands above each of the ears. Pin the rest of the long Hair Strands side by side to the back of the Head to cover it. Adjust the Hair Strands as needed to fill any bare spots.

Part 3: Sew the Hair Base to the Head using the embroidery needle and the long tail left over. Starting at the top of the Head, make a few whip stitches around the outside of round 4 and through the Hair and Head to keep it from moving around. Fasten off and weave in ends.

PATTERN NOTES

This pattern details how to make the Dress, Shoes and Hair for the doll. Each piece of clothing is created to be removable and interchangeable with other dolls and clothing. The Hair is created and sewn on to the doll head permanently.

The Pants and Shoes will be worked in unjoined, continuous rounds. To track them, place a removable stitch marker in the first stitch to denote the beginning of each round. You will move the marker up each round after completing the first stitch of each new round.

This pattern uses a shorthand style of crochet instructions. Abbreviation descriptions and instructions are given in the Stitch Guide. Some examples are provided below:

- When working stitches around, instead of reading something like “sc in the next 2 sts,” you will simply see “sc 2.”
- When working repeats of sets of instructions in a round, instead of seeing something like “* sc in the next 2 sts, 2 scs in the next st; rep 4 more times,” you will simply see “(sc 2, INC) x 5.”

Photos are provided for your reference throughout the pattern. Please reference the Materials list to ensure you are using the correct colors per section, as some photos are duplicated and used across all doll accessory patterns.
